

Approval of Handbooks and Directives

In order that pertinent Board policies, regulations, school rules and procedures may be known by all staff members, patrons, students and parents affected, the public charter school superintendent is granted authority to issue staff and student/parent handbooks.

It is essential that the contents of all handbooks conform with the public charter school agreement, policies and administrative regulations. It is also important that all handbooks bearing the name of the public charter school be of a quality that reflects favorably on the school. The Board, therefore, expects all handbooks to approved by the superintendent before publication.

All handbooks published are to be made available to the Board for informational purposes.
