## Funding Proposals and Applications

The Board has as its primary mission the education of district students according to adopted goals and priorities. To this end all legal and worthwhile financial resources will be pursued.

Grants may become available from private, federal or state sources. The district will pursue those grants that will assist the district in meeting the adopted goals and priorities of the current instructional program or will create facilities, purchase equipment or otherwise assist in implementing such programs as the Board has previously considered/approved.

The Board directs that each presentation regarding the pursuit of outside funding include the obligations, expectations or encumbrances which will exist when the grant or other outside funding ceases.

The Board will consider the above criteria as it acts upon requests for grants, will expect a recommendation from the superintendent and a full explanation of all aspects of the proposal before approving any application. In the event an opportunity arises to submit a grant proposal and there is insufficient time to place it before the Board, the superintendent is authorized to use his/her judgment in approving it for submission. The superintendent will review the proposal with the Board at its next regular meeting. The Board reserves the right to reject funds associated with any grant which has been approved.
