Safety Program/Inspections

Through its comprehensive safety program, the district will provide a safe working and learning environment. Accident prevention instruction will be given to students and staff. Safety procedures will be taught, and other precautions will be taken in order to reduce accidents and address potentially harmful situations.

Buildings, grounds and equipment will be maintained in order to prevent accidents or injury to students, employees and other citizens from fire, natural disasters, mechanical and electrical malfunction and other hazards.

All facilities and grounds will be inspected regularly for evidence of health and safety hazards. Such hazards will be reported immediately to the district safety officer.

Facilities will be planned, equipped and maintained in accordance with local, state and federal safety regulations.

Facilities will be provided with alarm systems, fire extinguishers and other safety devices required by state and federal laws and regulations.

The superintendent will develop and implement a safety program which will include, but not be limited to, compliance with and enforcement of all state and federal laws, rules and regulations.
