Adopted: 5/02/02
Readopted: 10/02/14

Research

Employees are encouraged to participate in research for the development and improvement of education. If an employee plans to engage in a research project during the work day or use district resources or students, either for study toward advanced work or for use in classroom instruction, approval must be secured from the superintendent. If the study results in material which would be useful to other employees, it is recommended that it be made available for distribution throughout the district. For the protection of all concerned, privacy rights of students or other individuals involved in research projects must be protected.

Research which is conducted by or for a nondistrict employee must be approved by the superintendent or designee.

Classroom-based research approved by the principal is not subject to this policy.

Research publications, articles, materials, models and other items produced by district personnel for district use with district time, money and facilities as part of an employee's job responsibilities remain the property of the district.

END OF POLICY
