Orig. Code(s): JFCHA

Cocurricular Drug and Alcohol Participation Standards

The district athletic/activities departments recognize the importance of having totally drug-free schools while promoting a healthy lifestyle for students participating in these programs. Additionally, their purpose is to help students develop positive behaviors while representing the school and its student body in a responsible manner. The district's athletic/activity departments shall publish expectations and develop procedures that intend to eliminate the use of alcohol and unlawful drugs by students who participate in our cocurricular programs.

Given the rate of adolescent use of alcohol and/or other drugs, the district is committed to a comprehensive home-school-community partnership program which includes as essential components: prevention, intervention and school reentry support. Professional treatment and aftercare, when needed, will remain the responsibility of the student and parent. The schools will be committed to cooperation during treatment and aftercare.

The superintendent will develop administrative regulations to implement this policy.

END OF POLICY
