

## Technology

The district's Technology Plan envisions that from their instructional sites, students and staff will be able to:

1. Use technology as a tool for productive learning.
2. Access information and manipulate it in meaningful ways that result in learning;
3. Generate and create information related to district instructional and curriculum goals;
4. Computer users will recognize and adhere to existing copyright laws.
5. All hardware purchased must be compatible with other school hardware and be easy to maintain and must meet district technology standards.

The district recognizes that technology will be changing; therefore, a continual review of the district's technological applications, fiscal and human resources, staff development needs, equipment and supplies will be conducted and will be reported to the board annually.

END OF POLICY
