Student Conduct

Development of positive behavior in students is a dual function of the home and school. The Board recognizes that acceptable behavior is essential to development of responsible and self-disciplined citizens and to providing an effective school program. Positive behavior is based on respect for self and for the worth and human dignity of others.

To fulfill the school's responsibility, all activities will be designed and supervised in such a way as to contribute positively to the creation and maintenance of a climate that is conducive to learning. All staff members have responsibility for consistency in establishing and maintaining an appropriate behavioral atmosphere.

A student code of conduct, developed under the leadership of the district administration, will be made available to parents, students and staff and enforced in the school.
