District-Community Relations Goals and Objectives

The Board's goals for achieving positive district-community relations are to:

1. Develop public understanding of all aspects of school operations, ascertain public attitudes toward issues in education and identify the public's educational expectations for their students;
2. Secure adequate financial support for the educational program;
3. Help citizens assume responsibility for the quality of education provided by their schools;
4. Earn the public's confidence with regard to district staff and services;
5. Foster public understanding of the need for constructive change and solicit public advice on achieving educational goals;
6. Engage citizens as active volunteers in the district;
7. Provide community use of district facilities within district limitations;
8. Promote cooperation between the district/school and the community and share the leadership for improving community life;
9. Promote business-education partnerships;
10. Cooperate with other government agencies.

Achieving these objectives requires that the Board and staff, individually and collectively, express positive attitudes toward the schools in their daily contacts with parents, community members and one another; make systematic, honest and continuing efforts to discover what the public thinks and what citizens want to know; interpret school programs, problems and accomplishments; develop an active partnership with the community in working toward improvement of the educational program; and take an active interest in the needs of the community to find ways to make the community a better place to live.
