Public Communications Program

The residents of the district are interested in their schools as an extension of their homes, an extension which exists to perform a special function in the development of their students. Therefore, the Board will make every attempt to:

1. Keep the public informed about the policies, administrative regulations, objectives and educational programs of the district;
2. Provide the means for furnishing full and accurate information, together with interpretation and explanation of the district's plans and programs.

In meeting these goals, the Board will place great importance upon the role of the individual staff members as communicators and interpreters of the district program to parents and the community. It is recognized that there are times when direct communication between the Board and the community is necessary. At such times, the Board will encourage and provide these opportunities.

The superintendent will develop procedures and techniques for assuring a continuous and free-flowing line of communication between staff and the district's residents.
