Evaluation of School Board Operational Procedures

It shall be the duty of the Board to periodically request information pertinent to programs, financing, building needs and operations generally, in order that an objective evaluation may be made.

Board members are also encouraged to contact building principals or the superintendent, to carry out personal visits to buildings and programs in those buildings, whenever they have an opportunity.

The Board will plan an annual evaluation of its function as a Board. This evaluation may be broadly based on relationships and activities or may focus on a particular activity or area.

Working with the superintendent, the Board chairman and an ad hoc Board committee appointed by the chairman may develop the evaluation plan. Upon Board approval, an outside consultant may develop and lead the appraisal session(s).
