

Alcohol/Controlled Substance Use

The following conduct is prohibited and will subject an employee to disciplinary action, including suspension and discharge:

1. The buying, selling, transportation, possession, provision or use of intoxicants, including alcohol, or any controlled substances as defined by law while on district property, during work hours (including meal periods), while assigned to extra duty or special projects, including those held after or in addition to regular school hours and while driving between work sites during the work day in either a district-supplied vehicle or a vehicle supplied by the employee;
2. Reporting for work under the influence of alcohol, intoxicants or any controlled substance. An individual is considered to be “under the influence of alcohol, intoxicants and/or a controlled substance” when, in the district’s determination based upon testing conducted by and interpreted by trained medical personnel, the controlled substance, alcohol or intoxicant is at a level that it may impair the individual’s ability to safely and/or efficiently perform assigned work OR prevent the employee from presenting a positive role model to students.

Such violations may also disqualify an employee from unemployment compensation benefits.

Remedial action, where appropriate, should be corrective, not disciplinary, in nature, although suspension may be included in the action and discharge may result where an employee fails to comply with the action or correct the effect on job performance or risk of injury.

If the district has reasonable grounds to believe that an employee is under the influence of intoxicants, including alcohol or any controlled substance, the district may require the employee submit to immediate testing by trained medical personnel. Refusal to submit immediately to such tests may result in disciplinary action, including suspension and discharge. “Reasonable grounds” may include, but are not limited to, such things as slurred speech, dilated pupils, peculiar odors and unsteady balance.

The district reserves the right, with prior notice and reasonable suspicion, to conduct searches on district property of employees and/or their personal property which is on the district’s premises.

The district also reserves the right, with prior notice and reasonable suspicion, to conduct searches of district property, vehicles or equipment at any time. A refusal to submit to a search may result in disciplinary action, including suspension and discharge.

The administration will develop appropriate regulations, procedures, consent forms and such notifications as are needed for an orderly implementation of this policy.
