

# Glide School District 12

Code: **KB**  
Adopted: Unknown  
Readopted: 3/25/91  
Orig. Code(s): 8035

## Public Information Program

Since public education is a function initiated by, intended for, and financed largely by citizens of the district, they are entitled to be kept informed of the progress and problems faced by their educational institution. Good communications between the school system and its citizens is crucial for the development of wholesome mutual understanding, respect, and confidence; further, all persons directly associated with the system share the responsibility for developing desirable respect and understanding.

Communications is a two-way process -- disseminating and receiving. Citizens are urged to bring their aspirations and feelings about their public schools to the attention of the body which they have chosen to represent them in the management of the institution.

While a number of channels are available for this two-way communication, the Glide Board of Education sees its chief administrator as the most practical medium for disseminating and receiving information about the schools.

The Board, through the superintendent will seek to keep the public informed as to the needs and activities of the schools.

1. Cooperation by the schools with the various news media is encouraged.
2. Special publications by the Glide Public Schools may be issued for information of parents and the public from time to time.
3. School personnel shall be encouraged to meet with organizations and groups in the community to explain the school program and to seek community views and opinions.

END OF POLICY
