## Policy Development

Board policies are formal statements which set forth the purposes and describe in general terms the organization and programs of the district. Formulation and adoption of such policies constitute one method by which the Board exercises its leadership in operation of the school system. These statements of general principles are to create a framework within which the superintendent and staff can discharge their assigned duties with positive direction.

While reserving entirely to itself all policy-making and governing functions, the Board intends that these policies be narrow enough in scope to give clear guidance to the superintendent for making administrative decisions, yet broad enough to provide opportunity for the exercise of proper administrative and executive functions.
