District Budget

The Board realizes that it is impossible to meet an infinite array of educational needs and desires with finite resources.

The superintendent is the budget officer and is hereby directed to formulate the budget considering the following criteria:

1. At all times all resources must be utilized to produce the most positive effect on the student's opportunity to gain a basic general education;
2. The budget must be in accord with state and federal laws and regulations;
3. The budget must be in accord with the requirements and regulations of the Northwest Association of Secondary Schools and Colleges;
4. The budget must take into consideration the Board's responsibility for employee welfare.

The district may provide that the budget be prepared on an annual or biennial basis.

In addition, efforts will be made to involve staff in the budget process at the building level.
