Enrollment Projections

Enrollment projections will be prepared at the direction of the superintendent and will be reviewed and updated annually.

Projections will take into consideration the following:

1. School registration figures;
2. Review of forthcoming changes in town planning and zoning;
3. Review of current and planned community land development and housing projects.

When construction of new school facilities or the closing of any school buildings is being contemplated, the Board may authorize outside studies made of population trends and school enrollment.

Each fall, administration will project enrollment for the following fall and, in addition, will prepare the best possible assessments of enrollments 2, 5 and 10 years in advance. These projections will be reported to the Board at least twice yearly.
