Curriculum Development/Adoption

The Board recognizes that curriculum development is a continuous process of evaluating and modifying programs. The superintendent will be held responsible for establishing procedures which will appropriately involve staff members in developing curriculum which is in line with the objectives of the district.

The Board is the legal instrument through which the state fulfills its responsibilities to education. The patrons of a district control curriculum by the policies of the elected Board. These policies are implemented by a professional staff under the leadership of the superintendent hired by the same Board.

Recommendations to add new courses or programs or to delete existing courses or programs must be approved by the Board.
