

# Grants Pass School District 7

Code: **JECB**

Adopted: 10/09/01

Readopted: 2/24/04; 2/28/06; 4/08/14;  
7/08/14; 5/26/15

Orig. Code(s): JECB

## **Admission of Nonresident Students**

The district may enroll nonresident students under the following conditions:

1. By written consent of the sending and receiving district superintendents (or designees), the student becomes a “resident pupil” of the attending district for that school year, thereby allowing the attending district to receive State School Fund moneys;
2. If a juvenile court determines it is in the student’s best interest, a student placed in a substitute care program outside the district will continue to be considered a resident student and allowed to attend the school the student attended prior to placement. The public agency placing the student in a substitute care program will be responsible for the transportation of the student.
3. By unilaterally admitting with tuition a nonresident student whereby neither district is eligible for State School Fund moneys.

The Board shall deny regular admission to nonresident students who are under expulsion from another district for a weapons policy violation. The Board will, based on district criteria, deny regular and alternative education program admission to nonresident students who are under expulsion from another school district for reasons other than a weapons policy violation.

### **Consent to Release Students from District #7**

Except as otherwise required by law, the Board reserves the right to reject student interdistrict transfer release requests. The Board may not consider nor ask for any information from the student about race, religion, sex, sexual orientation, ethnicity, national origins, disability, health, whether a student has an individual education program (IEP) or the terms of that IEP, identified as talented and gifted, income level, residence, proficiency in English, athletic ability or academic records. The Board may not request or require the student to participate in an interview, tour any of the schools or facilities, or otherwise meet with any representatives of the school or district prior to the district deciding whether to give release consent.

The Board may ask for the student’s name, contact information, date of birth, grade level and whether the student is currently expelled for a weapons violation.

The Board will annually determine whether to limit the number of students to whom consent for release will be given. If the number of students seeking consent for release exceeds the number of students established by the Board, the Board will use an equitable lottery selection process. The process may give release priority to students who have siblings currently enrolled in the district, and to students who are children of employees of the receiving district.

The Board may revise the maximum number of students to whom release consent will be given at a time other than the annual date established by the Board if there are no pending applications for release consent. If the Board decides not to give release consent to a student the Board must provide a written explanation to the student.

The district is not required to provide transportation to students released from the district.

### **Consent to Accept Students into District #7**

Except as otherwise required by law, the Board reserves the right to accept nonresident students based upon the availability of space, resources, personnel and appropriate programs. The Board may not consider nor ask for any information from the student about race, religion, sex, sexual orientation, ethnicity, national origins, disability, health, whether a student has an IEP or the terms of that IEP, identified as talented and gifted, income level, residence, proficiency in English, athletic ability or academic records. The Board may not request or require the student to participate in an interview, tour any of the schools or facilities, or otherwise meet with any representatives of the school or district prior to the district deciding whether to give acceptance consent.

The Board may ask for the student's name, contact information, date of birth, grade level and whether the student is currently expelled for a weapons violation.

The Board will annually determine whether to limit the number of students to whom consent for acceptance will be given. If the number of students seeking consent for acceptance exceeds the number of students established by the Board, the Board will use an equitable lottery selection process. The process may give priority to students who have siblings currently enrolled in the district, and to students who are children of current employees.

Annually, by June 15th, the Board shall establish the number of kindergarten through twelfth grade students to whom acceptance consent will be given for the upcoming school year. The Board may choose to limit acceptance consent based on school, grade or the combination of both. The Board may decide not to give acceptance consent to any person under this process.

Annually, by September 15th, the Board shall establish the number of additional Kindergarten students to whom acceptance consent will be given for the upcoming school year. The Board may choose to limit acceptance consent based on school, grade or the combination of both. The Board may decide not to give acceptance consent to any person under this process.

Applications for acceptance consent submitted by June 30 each year, will be assigned established slots or entered into a lottery if applications exceed established slots. Applications received after June 30, will be assigned slots on a first come, first served basis until established slots have been filled.

The Board may determine the length of time the acceptance consent is given and different lengths of time can be established based on grade level. Any limitations in length of time must be applied consistently among all students at a grade level to whom acceptance consent was given.

The Board may revise the maximum number of students to whom acceptance consent will be given at a time other than the annual date established by the Board if there are no pending applications for release consent. If the Board decides not to give acceptance consent to a student the Board must provide a written explanation to the student.

The district is not required to provide transportation outside the boundaries of the district. The student will be allowed to use existing bus routes and transportation services of the district.

Except as otherwise required by law, admission of nonresident students may be terminated if a student fails to meet the standards for attendance and behavior established by the district.

As necessary, the district will enter into protocol agreements with neighboring districts to establish release and acceptance slots for approval by the Board.

END OF POLICY
