Distance Learning

Students will pay for the class before it begins. If the student successfully completes the class, the fee will be refunded by the district. The student must complete the work and turn in grade report prior to the end of the school year in which the class was started in order for reimbursement to be made and credit given.

Licensed teachers may be assigned to a distance learning program without additional license requirements. Teachers offering instruction via live, interactive satellite must hold a current license either from the employing state or Oregon and pass a nationally recognized basic skills test.

The district or charter school may contract with the Superintendent of Public Instruction to provide online courses through the Oregon Virtual School District. The district or charter school may also allow students to access the online courses offered by the Oregon Virtual School District.
