High School Classes/Courses for Eighth Graders

The Board discourages the practice of students missing the eighth grade and attending high school; however, under some circumstances the Board realizes it is the parents desire to advance their student. When this happens and they wish to attend the high school, the following procedure must be followed:

1. A student must be 14 years of age prior to September 1;
2. A recommendation of the grade school teacher must be sent to the high school;
3. A recommendation by the high school special education staff must be filed in the office;
4. An appointment must be made and time allowed for testing in the areas of language arts, math and social studies;
5. If all of the above have been satisfactorily completed, the request will then be taken to the Board at its regular meeting following completion for final approval or disapproval.
