Student Transportation Services

Transportation of students in ESD programs is, as a general rule, the responsibility of the student's resident district. Arrangements for transportation of each student will be made at the time the student is accepted into an ESD program. If local district transportation is not available to an ESD program, the ESD may provide transportation on a contract basis.

When transporting students to participate in district-sponsored functions, such as field trips, the ESD shall arrange for publicly-owned vehicles which meet or exceed all standards applicable under state rules and regulations, including child safety system requirements as set forth in ORS 811.210, 815.055 and 815.080 and OAR 735-102-0010.
