Service District**

Code: **GBEBC**  
Adopted: 6/11/03  
Readopted: 2/13/13  
Orig. Code(s): GBEBC

**Infection Control - HIV, AIDS, HBV**

The ESD shall use standard precautions at all times for infection control. Each person is therefore treated as though an HIV, AIDS or HBV<sup>1</sup> infection exists.

The ESD shall develop an Exposure Control Plan that includes infection control procedures for staff.

Staff shall receive an annual in-service that includes correct procedures for cleaning up body fluid spills and for personal cleanup, appropriate disposal, immunization and personal hygiene, as well as the location and a content review of first-aid and clean-up kits. Kits shall be readily available in ESD facilities and in each ESD vehicle.

In addition to an annual in-service, staff on a regular basis will receive HIV, AIDS and HBV information.

The information shall emphasize how infection is spread as well as how it is not spread.

END OF POLICY
