Curriculum Adoption

The Board believes it is necessary to continually develop and modify all ESD curricula to meet changing needs in technology and fields of knowledge and to assure the full, rounded and continuing development of students. While keeping with the requirements of state law, the Board authorizes the superintendent to review the curricula periodically and to advise the Board on needed changes.

The Board retains its full rights and responsibilities under the laws and regulations of the state of Oregon with regard to adopting curriculum. Any suggested changes in programs provided by the ESD will be done only after ESD personnel have reviewed such proposed changes and interpreted the proposed changes as they will affect other programs of the ESD.

The ESD will coordinate curriculum development with component school districts where appropriate.
