Authorized Use of ESD Equipment and Materials

Teaching materials and equipment will also be shared with local school districts. The Board believes that although ESD equipment is purchased by taxpayers, the equipment is primarily purchased to provide for and/or enhance ESD programs and services. It is the Board's responsibility to protect and maintain this equipment. The Board is also responsible for establishing guidelines concerning equipment which may be used by the public and conditions under which it can be used. Equipment will be available only to the ESD's community members and ESD employees and authorized use shall be consistent with ORS Chapter 244 and Oregon Government Ethics Commission guidance.

In all cases of public use, equipment shall not be used for private financial gain. An equipment use form must be submitted and approved, and all conditions outlined on the attached district equipment list must be adhered to. In the event of "excessive damage," a fee will be determined according to repair or replacement costs. Transportation of borrowed equipment will be the user's responsibility. Fees may be assessed for use of designated equipment as outlined in ESD procedures as approved by the superintendent.
