Superintendent's Consulting Activities

The Helix School Board expects the superintendent/principal to devote full attention and energy to the concerns of the district. The superintendent/principal may not be engaged in any other employment nor in long-term consulting assignments. The Board, however, recognizes the superintendent/principal's obligation to contribute to the profession of school administration and to the field of public education in general. This policy, therefore, does not prohibit the superintendent/principal from undertaking occasional consulting work that does not conflict with obligations to the district. However, prior Board approval is required before the superintendent/principal accepts any consulting assignments.
