Alternative Certificates

Alternative certificates will be awarded to students who do not satisfy the requirements for a diploma, modified diploma or extended diploma if the students meet minimum credit requirements established by the district. Alternative certificates will be awarded based on individual student needs and achievement. A student who receives a modified diploma, extended diploma or alternative certificate will have the option of participating in a high school graduation ceremony with the student's class.

Other District Responsibilities

The district will ensure that students have onsite access to the appropriate resources to achieve a diploma, modified diploma, extended diploma or alternative certificate at each high school. The district will provide age appropriate and developmentally appropriate literacy instruction to all students until graduation.

The district may not deny a student, who has the documented history of an inability to maintain grade level achievement due to significant learning and instructional barriers, or of a medical condition that creates a barrier to achievements, the opportunity to pursue a diploma with more stringent requirements than a modified diploma or an extended diploma for the sole reason the student has the documented history. The district may award a modified diploma or extended diploma to a student only upon the written consent of the student's parent or guardian. The district shall receive the written consent during the school year in which the modified diploma or extended diploma is awarded. A student who is emancipated or has reached the age of 18 at the time the modified diploma or extended diploma is awarded may sign the consent.

A student shall have the opportunity to satisfy the requirements for a modified diploma, extended diploma or alternative certificate in either four years after starting the ninth grade, or until the student reaches the age of 21, if the student is entitled to a public education until the age of 21 under state or federal law.

A student may satisfy the requirements for a modified diploma, extended diploma or alternative certificate in less than four years but not less than three years. In order to satisfy the requirements for a modified diploma, extended diploma or alternative certificate in less than four years, the student's parent or guardian or a student who is emancipated or has reached the age of 18 must provide written consent which clearly states the parent, guardian or student is waiving the fourth year and/or years until the student reaches the age of 21. A copy of the consent will be forwarded to the district superintendent who will annually report to the Superintendent of Public Instruction the number of such consents.

A student who received a modified diploma, extended diploma or alternative certificate will have the option of participating in a high school graduation ceremony with the student's class.

A student who receives a modified diploma, extended diploma or alternative certificate shall have access to individually designed instructional hours, hours of transition services and hours of other services that equals at least the total number of instructional hours that is required to be provided to students who are attending a public high school, unless reduced by the IEP team.

The district will award to students with disabilities a document certifying successful completion of program requirements. No document issued to students with disabilities educated in full or in part in a special education program shall indicate that the document is issued by such a program. When a student who has an IEP completes high school, the district will give the student an individualized summary of performance.

Eligible students with disabilities are entitled to a Free Appropriate Public Education (FAPE) until the age of 21, even if they have earned a modified diploma, an extended diploma, an alternative certificate or completion of a General Education Development document. The continuance of services for students with disabilities for a modified diplomas, extended diploma or alternative certificate is contingent on the IEP team determining the student's continued eligibility and special education services are needed.

Students and their parents will be notified of graduation and diploma requirements.

The district may not deny a diploma to a student who has opted out of statewide assessments if the student is able to satisfy all other requirements for the diploma. Students who opt-out will need to meet the Essential Skills graduation requirement using another approved assessment option. Students may opt out of the Smarter Balanced or alternate Oregon Extended Assessment by completing the Oregon Department of Education's Opt-out Form² and submitting the form to the district.

The district will review graduation requirements biennially in conjunction with the secondary school improvement plan. Graduation requirements may be revised to address student performance.

The district will issue a high school diploma, upon request, to a person who served in the Armed Forces³, as specified in Oregon law, if the person was discharged or released under honorable conditions and has received either a General Educational Development, a post-secondary degree or has received a minimum score on the Armed Services Vocational Aptitude Battery.
