

# Hermiston School District 8R

Code: **IGAEB-AR**  
Adopted: Unknown  
Effective: 7/6/04; 8/3/04  
Orig. Code(s): None

## **Drug, Alcohol and Tobacco Prevention Program**

### **Drug, Alcohol and Tobacco Prevention Program**

The district's drug, alcohol and tobacco curriculum will be age-appropriate, reviewed annually and updated as necessary to reflect current research.

Drug, alcohol and tobacco prevention instruction will be integrated in the district's health education courses. Students not enrolled in health education shall receive such instruction through other designated courses. At least annually, all high school students shall receive such instruction. Instruction shall meet or exceed the requirements set forth in Oregon Administrative Rules.

The district will include information regarding the district's intervention and referral procedures, including those for drug-related medical emergencies in student/parent and staff handbooks.

Intervention is defined as the identification and referral of students whose behavior is interfering with their potential success socially, emotionally, physiologically, and/or legally as a result of prohibited drug, alcohol and/or tobacco use.

Each year the administration will meet with law enforcement officials to discuss:

1. Who the school should call for suspected violations of the law or other needs;
2. How school representatives should handle evidence of a suspected offense (i.e.: school staff should not taste a substance to ascertain whether or not it is a drug). What about fingerprints? Paraphernalia?
3. What questioning procedures may take place on district property;
4. Other needs of the district and law enforcement to avoid conflicts or confusion before a substance-related incident occurs.

In general, drug-related medical emergencies will be handled like a serious accident or illness. Immediate notification of the community emergency care unit is required. Trained staff members will assist the student in any way possible. Parents shall be contacted immediately. A staff member shall be designated to accompany the student to the hospital or emergency medical facility. Procedures to be taken, including those for students participating in district-sponsored activities off district grounds, shall be included in the district's comprehensive first aid/emergency plan.

The district will actively seek funds from outside sources either independently or through coordinated efforts with other districts, community agencies or the education service district for drug-free schools grants.

Funds needed to support district activities related to unlawful drug, alcohol and tobacco prevention will be identified by source, particularly the 1986 Drug-Free Schools Act, moneys or other grants received from federal, state or local sources.

A planned staff development program that includes current drug, alcohol and tobacco prevention education, an explanation of the district's plan and staff responsibilities within that plan will be developed by the superintendent. The input of staff, parents and the community is encouraged to ensure a staff development program that best meets the needs of district students.

The district will develop a public information plan for students, staff and parents.
