

Video Cameras on Transportation Vehicles

Education Records

1. The district will comply with provisions of state and federal law regarding student education records requirements including the Family Educational Rights and Privacy Act (FERPA) and the Individuals with Disabilities Education Act (IDEA) as applicable in the district's use of video recordings. Video recordings which become a part of the student's educational record will be maintained in accordance with established student record procedures governing access, review and release of student records.
2. The district will include notice in parent/student handbooks that video cameras may be used on school transportation vehicles transporting students to and from curricular and cocurricular activities. The district will provide, as part of its notice procedures, a copy of the district's video camera policy and procedures to all students and parents as an acknowledgment of being read and understood.
3. Students will not be notified when the video camera is "on board" and in use on district vehicles.

Staff Records

1. Video recordings considered for retention as part of the employee's personnel record will be maintained in accordance with established Board personnel policies, administrative regulations and collective bargaining agreements governing access, review and release of employee personnel records.
2. The district will include notice in personnel handbooks that video cameras may be used on school transportation vehicles transporting students to and from curricular and/or cocurricular activities.
3. Staff may be notified when the video camera is "on board" and in use on district vehicles.

Storage/Security

1. All video recordings will be stored and secured to ensure confidentiality.
2. Video recordings will be stored for a minimum of five days after initial recording, whereupon such recordings will be released for erasure unless they become part of a student's education record.
3. Video recordings held for review of student or staff incident will be maintained in their original form pending resolution. The recording will then be either released for erasure or retained as a necessary part of the student's educational record and/or employee's personnel record in accordance with the established district procedures.

Use

1. Video cameras may be used on all school transportation vehicles transporting students to and from curricular or extracurricular activities at the discretion of the transportation supervisor/superintendent.
2. Staff and students are prohibited from tampering with or otherwise interfering with video camera equipment.

Viewing Requests

1. Requests for viewing video recordings will be limited to the appropriate vehicle driver, transportation supervisor, school administrator, parent or guardian or student 18 years of age or older or others as deemed appropriate by the superintendent.
2. Requests for viewing may be made to the transportation supervisor within five school days of the date of recording.
3. Requests for viewing will be limited to those parents or guardians, students and district officials with a direct interest in the proceedings as deemed appropriate by the superintendent.
4. Only the portion of the video recording concerning a specific incident will be made available for viewing.
5. Approval/denial for viewing will be made within five school days of receipt of request and so communicated to the requesting individuals.
6. Video recordings will be made available for viewing within three school days of the request approval.

Viewing

1. Actual viewing will be permitted at school-related sites only, including the transportation office, schools, district office or as otherwise required by law.
2. All viewing will include the transportation supervisor and/or school administrator.
3. A written log will be maintained of those viewing video recordings, including date of viewing, reason for viewing, the date the recording was made, the vehicle video recorded and driver, and the signature of the viewer.
4. Video recordings remain the property of the district and may be reproduced only in accordance with law, including applicable district student record's policy and administrative regulations and district personnel records policy, administrative regulations and applicable labor agreements.

Installation (From OAR 581-053-0240(81))

Video surveillance cameras may be installed inside or on the forward bulkhead (header) above the windshield in compliance with the following requirements:

1. Surface-mounted camera/camera housing/video recording devices or those extending into the passenger compartment shall be mounted as close as practicable directly above the driver but not to extend into the area directly forward of the aisle beyond the existing 6" x 30" rear view mirror or the installation complies with all of the following:
 - a. The camera/recorder/housing extends into the passenger compartment no more than 9";
 - b. Extends down from the ceiling no more than 5";
 - c. Is no wider than 5"; and
 - d. Is located as close as practicable to the mid-point of the header at the highest possible position.
2. If camera/camera housing or video receiving device extends into the passenger compartment all edges must be rounded and/or protected with enclosure of shatterproof construction;
3. Flush-mounted camera systems (no extension into passenger compartment) may be mounted in any desired position on the bulkhead;
4. Camera/Camera housing must be adequately secured to the bulkhead or ceiling in a manner to prevent separation from the vehicle in the event of a collision or mishap. Securement system shall be capable of withstanding a force of 5,672 Newtons applied from any direction without separation from the bus;
5. Camera-mounting design must allow ready access for camera and video recording medium removal;
6. All electrical connections shall be made with UL-approved wiring and protected by grommets any place it passes through metal panels.

Purchase, Maintenance, Replacement of Equipment/Supplies

1. The transportation supervisor will be responsible for all video equipment and supplies purchase, maintenance and replacement.
2. The transportation supervisor will develop a long-range video equipment and supply replacement cycle.
3. Vehicle drivers will be responsible for the care of video equipment while operating district vehicles.

Notice to Students and Parents Regarding the Use of Video Recording on School Buses

The district has installed interior video recording equipment on all school buses to monitor student behavior and will be randomly video recording student conduct during the upcoming school year. Each bus has been equipped with a video monitor box, in which a video recording device may be installed. Students will not be notified when a recording device has been installed on their bus.

Recordings shall be reviewed on a routine basis by the transportation supervisor and evidence of student misconduct will be documented. Students found to be in violation of the district's bus conduct rules, as contained in the student handbook, shall be notified and disciplinary action will be initiated under the guidelines contained in the district's discipline procedures for district-approved student transportation.

Video recordings shall be treated as protected student records under the Family Educational Rights and Privacy Act. The following guidelines shall apply:

1. Recordings shall remain in the custody of the district's transportation supervisor.
2. Parents or students who wish to view a video recording in response to disciplinary action taken against a student may request such access under the procedures set out in the Student Records Management policy.
3. For specific information on the use and viewing of video recordings, refer to Board policy EEACCA - Video Cameras on Transportation Vehicles.
