

# Hood River County School District

Code: **JHF**  
Adopted: 2/23/94  
Readopted: 5/14/14  
Orig. Code(s): 9701

## Student Safety

The Board directs the development and approval of a Health, Safety and Emergency Plan in each school. The plan is designed to assure every student a safe, healthy environment in which to learn. The plan will comply with federal, state and local laws and regulations and with Board policy.

Local building safety and health committees appointed by the superintendent will ensure that general safety regulations are reviewed with staff and students as appropriate to assure student safety.

Instruction in professional technical courses and other offerings such as science, family and consumer studies, art and physical education will include and emphasize accident prevention.

Safety instruction will assist students to:

1. Learn how to work, play and exercise safely and to prevent accidents;
2. Learn proper procedures to reduce the possibility of accidents;
3. Develop habits of good cleanliness, proper storage and handling of materials;
4. Become familiar with personal protective devices and the proper clothing to be worn for safety purposes;
5. Develop skills in the safe use of tools and equipment.

Safety instruction will precede the use of materials and equipment by students in applicable units of work in the courses listed above. Instructors will teach and enforce all safety rules set up for these particular courses. Rules will include, but not be limited to, wearing protective eye devices in appropriate activities.

Students will be asked to sign off upon completion of reading safety policies and materials and upon the completion of safety instruction.

Principals have the responsibility of organizing and maintaining effective school safety programs for their schools.

END OF POLICY
