Intradistrict Transfer Students

Elementary Classroom Transfer Requests

Parents may make requests for transferring their child to another classroom if more than one exists. Requests for student transfer should be considered only for exceptional reasons such as personality conflict between child and teacher or serious social problems causing learning problems. The principal shall have sole discretion and authority in making final decisions regarding parental requests for student transfers. The principal shall take into consideration such things as: student-teacher ratio, boy-girl balance, number of special education and TAG students, high/low reading and math levels, behavioral problems and teacher opinions. These issues shall be weighed and carefully considered prior to making a decision on student transfer. In general, parents, students and school personnel are encouraged to solve problems within the context of the classroom.
