

# InterMountain Education Service District

Code: **IICA**  
Adopted: 1/19/11

## Off-Campus Student Activities/Field Trips

Effective educational instruction frequently includes some use of the environment surrounding the ESD and its component school district communities as an integral part of the total program. The basic goal of any trip outside the classroom is to provide each student the opportunity to have a firsthand experience and to make his/her own observations.

In planning and authorizing such trips, primary consideration will be given to educational values derived, the safety and welfare of students involved, community standards of conduct and behavior on the part of all participants, the selection of appropriate adult supervision, either from within the ESD staff or from the ESD's parent and community volunteer pool. Any such trip should supplement in-class study.

The following student activities must be approved by the superintendent or designee:

1. Field trips;
2. An activity that will result in the student using different transportation to or from the ESD than he/she normally uses;
3. A special assignment/project that requires the student to leave the ESD campus.

A release/consent form must be completed and signed by the parent and on file before a student is allowed to engage in the activity.

The superintendent will develop administrative regulations to ensure both students and adult supervisors are acquainted with the standards for conduct while on a ESD approved off-campus activity/field trip. Such regulations will reinforce ESD policy in areas such as alcohol, tobacco and unlawful drug use; procedures to be used in cases of illness or accident and methods for communicating with administrators/parents in discipline and emergency situations.

END OF POLICY
