

Code: **JFCEB**
Adopted: 2/27/17

Personal Electronic Devices and Social Media**
(Student may not possess a personal electronic device)

Student possession or use of personal electronic devices and social media on public charter school property, in public charter school facilities during the school day and while the student is in attendance at public charter school-sponsored activities is prohibited. Exceptions may be made with prior superintendent or designee approval for health, safety or emergency reasons or when use is provided for in a student's individualized education program (IEP). Students may not access social media websites using public charter school equipment, while on public charter school property or at public charter school-sponsored activities unless the posting is approved by a public charter school representative.

A "personal electronic device (PED)" is a device that is capable of electronically communicating, sending, receiving, storing, recording, reproducing and/or displaying information and data.

Devices attached to, or stored in a student vehicle parked on public charter school property will be exempt from this policy, provided the device is not removed from the vehicle while on public charter school property.

Students in violation of this policy will be subject to disciplinary action up to and including expulsion.¹ The public charter school executive director shall ensure that the Board's policy is communicated to staff, students and parents through building handbooks and other such means. The public charter school will not be liable for information or comments posted by students on social media websites when the student is not engaged in public charter school activities and not using public charter school equipment.
