

## Community Resource Persons

Teachers are encouraged to use resource speakers from the community in order to enrich the education of students. Teachers are further encouraged to use resource persons representing a variety of approaches or points of view on a given topic in order to increase students' understanding.

No overall standard can be established which will automatically exclude, as a resource, the person whose views or manner of presenting them may obstruct the educational process or endanger the health and safety of students or staff. The Board establishes the following guidelines, however, in an effort to uphold students' freedom to learn while also recognizing obligations which the exercise of freedom entails:

1. The teacher/sponsor and school building administrator are expected to exercise judgment and to investigate fully those proposed resource persons about whom questions may arise;
2. Teachers/Sponsors should encourage the use of resource persons representing various approaches or points of view on a given topic to afford students a more comprehensive understanding of it;
3. An appropriate record will be made of each resource person used and of that person's presentation;
4. The ideas presented and the resource person invited to present them will have a demonstrable relation to the curricular or cocurricular activity in which the participating students are involved;
5. The teacher/sponsor responsible for inviting the resource person, or any member of the school administration, has the right and duty to interrupt or suspend any proceedings if the conduct of the resource person is judged to be in poor taste or endangering the health and safety of students and staff.

END OF POLICY
