

# Jefferson School District 14J

Code: **EFA**  
Adopted: 9/10/07

## Local Wellness Program

The Board is committed to providing an educational environment that both promotes and protects students' health, well-being and ability to learn by supporting healthy eating, physical activity and other behaviors that contribute to student wellness.

The Board recognizes that while feeding children is primarily the responsibility of the family, the district has a responsibility within the school day to provide students with healthy food options, physical activities and health education programs that promote lifelong wellness.

Food of minimal nutritional value (FMNV) as defined by the USDA should not be sold or served on school premises during the school day.

Beverages, food and snack items offered in vending machines, a la carte food offerings and student store items must meet the guidelines outlined in the district's code of policy and rule.

The Board will review this policy annually from the district wellness committee which can include, but is not limited to parents, students, school administrators, teachers, representatives from the food service department and members of the public.

The superintendent or his/her designee is directed to develop the necessary rules to implement this policy.

END OF POLICY
