

Jewell School District 8

Code: **IGAEB**
Adopted: 1/21/98
Readopted: 10/20/08; 6/15/15; 2/27/17
Orig. Code(s): IGAEB

Drug, Alcohol and Tobacco Prevention, Health Education**

Students have a right to attend school in an environment conducive to learning. Since student alcohol, drug and tobacco use is illegal and harmful, addictive and interferes with both effective learning and the healthy development of students, the school has a fundamental legal and ethical obligation to prevent unlawful drug (including marijuana), alcohol and tobacco use and to maintain drug-free educational environments.

After consulting with parents, teachers, school administrators, local community agencies and persons from the drug (including marijuana), alcohol or health service community who are knowledgeable of the latest research information, the Board will adopt a written drug, alcohol and tobacco prevention and intervention program.

Drug Prevention Program

The district's drug (including marijuana), alcohol and tobacco curriculum will be age-appropriate, reviewed annually and updated as necessary to reflect current research and Oregon's Health Education Academic Content Standards.

Drug (including marijuana), alcohol and tobacco prevention instruction will be integrated in the district's health education courses for grades K-12. Students not enrolled in health education shall receive such instruction through other designated courses. At least annually, all high school students, grades 9-12, shall receive instruction about drug (including marijuana) and alcohol prevention. Instruction shall minimally meet the requirements set forth in Oregon Administrative Rules.

The district will include information regarding the district's intervention and referral procedures, including those for drug-related medical emergencies, in the student/parent and staff handbooks.

"Intervention" is defined as the identification and referral of students whose behavior is interfering with their potential success socially, emotionally, physiologically and/or legally as a result of prohibited alcohol, tobacco and/or drug (including marijuana) use.

Any member of the staff who has reason to suspect a student is in possession of, or under the influence of unlawful drugs (including marijuana), alcohol, other intoxicants or tobacco on district property, on a school bus or while participating in any school-sponsored activity, whether on district property or at sites off district property, will escort the student to the office or designated area and will report the information to the principal or his/her designated representative.

The principal or designee will:

1. Call law enforcement if deemed appropriate;

2. Call the parents for a meeting;
3. Discuss incident with student, parents, if available, and police, if contacted;
4. Impose penalty for violations using due process procedures;
5. Tell parents about resources which offer treatment or assistance for young people suffering from drug (including marijuana)-, alcohol- or tobacco-related problems.

Students possessing, using and/or selling unlawful drugs (including marijuana), including drug paraphernalia, alcohol and tobacco on district property, in district vehicles, at district-sponsored activities on or off district grounds shall be subject to discipline up to and including expulsion. When considering disciplinary action for a child with disabilities, the district must follow the requirements of Board policy JGDA/JGEA – Discipline of Students with Disabilities including those involving functional behavioral assessment, change of placement, manifestation determination and an interim alternative educational setting. Students may also be referred to law enforcement officials.

Drug-related medical emergency will be handled like a serious accident or illness. Immediate notification of the community emergency care unit is required. Trained staff members will assist the student in any way possible. Parents shall be contacted immediately. A staff member shall be designated to accompany the student to the hospital or emergency medical facility. Procedures to be taken, including those for students participating in district-sponsored activities off district grounds, shall be included in the district's comprehensive first aid/emergency plan.

The district will actively seek funds from outside sources either independently or through coordinated efforts with other districts, community agencies or the education service district for drug-free schools grants.

A planned staff development program that includes current drug (including marijuana), alcohol and tobacco prevention education, an explanation of the district's plan and staff responsibilities within that plan will be developed by the superintendent. The input of staff, parents and the community is encouraged to ensure a staff development program that best meets the needs of district student.

The district will develop a public information plan for students, staff and parents.

This district's Drug (including marijuana), Alcohol and Tobacco Prevention, Health Education policy, related Board policies, rules and procedures will be reviewed annually and updated as needed.

END OF POLICY
