Traffic Safety Education

The driver education tuition amount will be determined by the Board following a recommendation from the building principals, business manager and director of secondary curriculum after review of the previous year's funding and programs costs.

Students who cannot pay all or part of the tuition may, upon appeal to the building principal and director of secondary curriculum, have all or a portion of the tuition waived. A conference with the student and parent may be required. Tuition waivers or reductions may result in: (1) accessing a fund set aside to assist needy students, (2) setting up a work program with the student, (3) setting up a payment plan, or (4) other financial arrangements.

Non-resident students can enroll in the district's program; however, a higher tuition will be charged.
