

Substance/Drug Abuse

The district prohibits the sale or distribution, use and/or possession of all unlawful drug by students using district facilities to include all buildings, grounds and vehicles for which the district has jurisdiction. This policy will be in effect 24 hours per day and is meant to include all school-sponsored activities whether on district grounds or not.

An “unlawful drug” is any drug as defined by the Controlled Substances Act including, but not limited to, marijuana, cocaine, opiates, amphetamines and phencyclidine (PCP). As used in this policy, unlawful drug also means possession, use, sale or supply of prescription and nonprescription drugs in violation of Board policy JHCD - Nonprescription Medication, JHCDA - Prescription Medication and any accompanying administrative regulations.

Students found in possession of any unlawful drug and/or related drug paraphernalia will have such items confiscated and turned over to appropriate authorities.

“Drug paraphernalia” means all equipment, products and materials of any kind which are marketed for the use or designed for the use in manufacturing, compounding, producing, processing, preparing, analyzing, packaging, storing, containing, concealing, injecting, ingesting, inhaling or otherwise inducing a controlled substance or intoxicant into the human body.

“Possession of controlled substances,” as it applies to students, shall be defined as the acceptance or ingestion by swallowing, inhaling or injecting into a person’s body an unlawful drug. This means students may not accept or ingest an unlawful drug and then return to district property or district-sponsored activities while a detectable level of said substances remain in their body.

Violation of this policy may result in the immediate suspension with a possible recommendation for expulsion from school for at least the remainder of the current semester. An attempt will be made to notify parents or guardians and the student may be referred to the proper law enforcement agencies.

If possession or use occurred near or on district grounds, disciplinary action may include removal from any or all extracurricular activities and/or forfeiture of any school honors or privileges (e.g., valedictorian, salutatorian, student body, class or club office positions, senior trip, prom, graduation ceremonies and activities, etc.).

District administrators acting on reasonable suspicion may request that students participate in a Breathalyzer screening for alcohol at school or prior to or during a school-sponsored event. If a student refuses, he/she may be subject to school discipline and/or referral to law enforcement officials.

Unlawful delivery of a controlled substance to a student or minor within 1,000 feet of school property is a Class A felony as provided by ORS 475.904.
