

# Klamath Falls City Schools

Code: **JHCCB**  
Adopted: 3/18/96  
Readopted: 10/09/06  
Orig. Code(s): 80803.0402

## Students - HIV, AIDS\*\*

This policy applied to special risk students who have HIV as well as all students with AIDS.

Special risk is defined as students who lack control of their body secretions or who display behaviors, such as biting, spitting or scratching, and those students who have uncoverable, oozing lesions where a more restricted environment is advisable. Such students infected with HIV should be cared for and educated in settings that minimize exposure of other students to blood or body fluids.

The district shall adhere strictly in policies and procedures to the Oregon Revised Statutes and Oregon Administrative Rules as they relate to a student infected with HIV or AIDS.

A student with HIV or AIDS must notify the school superintendent for continued educational services.

If the parent or student does not notify the district, an order to exclude the student from school will be issued by the Oregon Health Division or local health department, or the parent (student) may voluntarily withdraw from school. In either case, the district must notify the student and parent of alternative education programs.

If the district is informed, written guidelines shall be requested of the parent (student). These guidelines shall include who may have the student information, who will give the information, how the information will be given and where and when the information will be given.

After the Oregon Health Division or local health department evaluates the student's risks to others, including any restrictions which may be required, this condition will be reported by the parents to the district.

When informed and with written permission from the parent (student), the district will develop procedures for formulating an evaluation team. The team shall address the nature, duration and severity of risk as well as any modification of activities. Monitoring of the student's condition shall be included.

The district shall also develop policies and/or procedures for rumor control, infection control, student accommodations and public relations/media.

END OF POLICY

---
