Public Gifts to the District

Gifts which may serve to enhance and extend the work of the schools may be considered by the district. It will be the district's general policy to direct those who desire to make contributions to consider equipment or services that are not likely to be acquired from public fund expenditures.

Any property contributed to the schools becomes the property of the district and is subject to the same controls and regulations that govern the use of other district owned property. Any alterations to existing district owned property including acquisition, installation, maintenance or removal of equipment or materials must be authorized by the superintendent or Board.

Individuals or organizations desiring to raise funds for a particular gift to a school should first receive district approval for the gift. The approval process is initiated with the principal or the supervisor of a department.

Gifts receiving district approval shall be supervised by the district and be subject to budget, bidding, purchasing and construction requirements, and all Board policies.

Contributions for scholarships and loan funds for the post-high school education of district students may be received by the Board. The Board may appoint a committee to set conditions and terms for the administration of the scholarship or loan.

Gifts accepted shall be used for the purpose for which they were donated.

In accepting gifts, the Board will be aware of the requirement that there should not be significant differences among the various school facilities.
