Policy Implementation

The superintendent is responsible for implementing Board policies and for interpreting them to staff, students and the public. Other administrators share in this responsibility.

Many of the Board's policies require implementing regulations. The superintendent will develop these regulations, in consultation with principals, staff members and other persons and groups as appropriate, and will submit them to the Board for review.

Policies officially adopted by the Board will be included in the School Board Policy Handbook and Regulations, and available on the district's web site. Staff and student/parent handbooks also will be used for disseminating policies and regulations to persons directly affected by them. Each school shall have access to the policies and administration regulations. Each employee will be specifically notified of the existence and availability of personnel policies.

Principals are authorized to establish rules and procedures for the staff and student bodies of their schools as long as these rules and procedures are consistent with policies and regulations established by the Board and superintendent.
