

La Grande School District 1

Code: **EBB**
Adopted: 6/11/03
Readopted: 4/11/07; 4/30/08
Orig. Code(s): EBB

Accident Prevention and Safety Procedures

Through its comprehensive safety program, the district will attempt to prevent accidents by assuring a safe working and learning environment. Warning systems will be installed; accident prevention instruction will be given to students and staff; safety procedures will be taught; and other precautions will be taken in order to eliminate accidents and potentially harmful situations.

Each principal shall be responsible for the supervision of a safety program for his/her schools, and the supervisor of plant and operations shall have overall responsibility for the safety program of the district.

The practice of safety shall be considered a facet of the instructional plan of the district schools by virtue of educational programs in traffic and pedestrian safety, driver education, fire prevention and emergency procedures appropriately geared to students at different grade levels.

Further, the district will use all appropriate precautions when the application of any pesticide or other potentially harmful substance is used on school premises. Only those products readily available and approved for such use will be used. Those products which can be applied without special licensing or training are most appropriate. Employees will be instructed regarding the correct and safe application of any potentially hazardous or harmful substance. The Material Safety Data Sheet (MSDS) for any product used for such purposes will be available for employees and/or members of the public.

END OF POLICY
