Facilities Development Goals

The Board establishes these broad goals for development:

1. To integrate facilities planning with other aspects of planning in a comprehensive program of educational problem-solving;
2. To base educational specifications for school buildings on identifiable learner needs;
3. To design for sufficient flexibility to permit program modification or the installation of new programs;
4. To design school buildings as economically as feasible, providing that learner needs are effectively and adequately met by the design;
5. To involve the community, local school staff, available experts and the latest in related current developments and research in building plans and specifications;
6. To design school buildings with maximum potential for community use;
7. To meet all safety requirements in the remodeling of older structures;
8. To design, construct and renovate in such a manner that will allow low maintenance costs and conservative energy;
9. To provide building renovations, as needed, to meet state and federal requirements on the accessibility and usability of facilities to persons with disabilities.
