Talented and Gifted Program

The Board believes that academically talented and intellectually gifted students must be provided services to assist with the development of their special talents and abilities.

It will be the goal of the program to provide an adapted approach involving pre-assessed curriculum adjustment (expansion and/or acceleration of course content) to give each student the opportunity to realize his/her potential. A written plan that identifies programs or services needed to address the assessed levels of learning and accelerated rates of learning of identified students shall be similarly developed.

Students will be considered for designation as Talented and Gifted in accordance with scores in nationally standardized achievement and intelligence tests, anecdotal records and recommendation of staff, parents, and others. All services for meeting the needs of talented and gifted students will comply with Oregon Revised Statutes and Oregon Administrative Rules.

Communication with parents and parental input are an important component of the program.
