## **Outdoor School\*\***

The Board recognizes the importance of outdoor education and the Board recognizes that such programs may vary from school to school. The primary purpose is to provide students with first-hand acquaintance with their environment by developing an appreciation of the beauty and wise use of natural resources.

Outdoor education can involve living at an outdoor school for a period of time, spending an entire day at an area, or traveling to different locations to contrast environments, natural resources or geological formations.

The outdoor program shall be planned, including a description of curriculum goals, activities, assignments of personnel, transportation, itinerary, costs and supervision procedures. The plan shall be submitted to the superintendent or his/her designee for action.
