## Extracurricular Programs

The Board believes that student activities at school are a part of the total educational program and should be used as a means for developing wholesome attitudes and good human relations, as well as knowledge and skills. The Board believes that school citizenship, as reflected in student activities, is a measure of the achievement of important school goals. The Board recognizes that the greatest values to be derived from both curricular and extracurricular student school activities are developed and encouraged.

The Board further believes that any program of the student activities should:

1. Require all student participation to be on a voluntary basis.
2. Require that student activity funds should be used for purposes which benefit the student body of the school.
3. Permit the formation of student body government, student clubs, student body activities, and other student groups organized to promote or pursue specialized athletic, social service and social activities.

District student clubs or organizations shall not sponsor nor participate in activities, programs or events where alcohol, narcotics or tobacco would be available to students. District students are strictly prohibited from use of illegal substances at any school-sponsored event.
