

La Grande School District 1

Code: **IIBG**
Adopted: 3/9/05
Readopted: 6/13/07; 4/30/08
Orig. Code(s): IIBG

Computer Technology

The Board believes that computer technology has become a fundamental part of the educational process. Therefore, the schools of the district are directed to provide and maintain for student use the hardware and software which will allow appropriate management of information. Retrieval, examination, organization and use of information for problem solving and decision making are seen as appropriate uses of technology.

A district technology committee will review and update plans annually for support of computer hardware and service.

Other purposes shall include computer management systems such as library media circulation systems and database searches. Computer users will recognize and adhere to existing copyright laws.

Computer hardware and software will not be removed from school premises without prior permission from the building principal. All hardware purchased must be durable, use a wide range of software, be compatible with other school hardware and be easy to maintain.

All software must be previewed by an IT staff member before purchase. All purchases of software will be coordinated through the supervisor of media technology to avoid unnecessary duplication. A catalog of school software will be available.

The district will provide computer training for all staff appropriate to their assignments.

A district technology steering committee appointed by the superintendent will annually review and update a priority list for purchase of computers and a plan for computer acquisition and use. The district technology steering committee will annually recommend a proposed budget for computer hardware, software and accessories.

END OF POLICY
