Orig. Code(s): IIC

## Field Trips and Excursions\*\*

The district recognizes the value of special activities in the total curriculum and agrees that students profit from carefully planned experiences. Special activities are defined as learning experiences which extend beyond the physical boundaries of the classroom.

Field trips and other student activities involving travel may be authorized by the superintendent or delegated representative when such trips or activities contribute to the achievement of desirable educational goals. In planning and authorizing such trips, primary consideration will be given to educational values derived and the safety and welfare of the students involved.

Any out-of-country travel other than Vancouver or Victoria B.C. made under the auspices of the district, by either staff or students, requires Board approval. This would include any school sponsored activity in whole or part, and leave for staff when compensation continues in any form or amount, and/or when there is continuation of benefits. This is not intended to limit the ability of staff to travel at their will during regular recess periods for non-school related purposes.

Out-of-country travel should not unduly infringe upon the regular instructional program of students, staff member duties, the district's financial constraints, or the community's ability to provide assistance.
