Promotion and Retention of Students**

Students who cannot demonstrate proficiency in each subject area, or who are not making adequate progress towards demonstrating proficiency at their grade levels, will be considered for retention. Teachers must notify the principal of these students, make a recommendation to the principal concerning their promotion/retention and hold a conference with parents.

If the school recommends either promotion or retention of a student and the parent disagrees with that decision, the student will only be promoted or retained if the parent signs a “release from responsibility” form to be placed in the student’s file.

Advancing a Grade

All parental requests for a student to advance a grade will be referred to the principal who will identify the screening process and instruments that will provide a fair and dependable assessment. The principal will make the final decision regarding a student’s advancing a grade.
