

Lane Education Service District Policy

Code: **EEACD**
Adopted: 4/27/10

Use of District Activity Vehicles for Student Transportation

Transportation of students in Lane ESD programs is, as a general rule, the responsibility of the student's resident district.

The Board may provide for the use of vehicles, commonly designated as Types 10, 20 or 21 pupil transportation vehicles, which do not meet the requirements of a "school bus" for the purpose of transporting students, licensed, classified or other supervisory personnel to and from curricular and extracurricular activities sponsored by the district. The use of ESD activity vehicles will be limited to circumstances where public transportation or component district transportation options are not available.

The vehicle shall be insured for bodily injury, property damage, uninsured motorist coverage and personal injury protection. The executive director of business will recommend amounts to adequately protect the district against loss.

The district will meet or exceed minimum driver requirements and procedures as set forth in OARs 581-053-0545, 581-053-0550 and 581-053-0555. The district shall meet child safety system requirements and minimum standards and specifications as set forth in ORS 811.210, 815.055 and 815.080 and OAR 735-102-0010.
