

Lane Education Service District Policy

Code: **JHCCC/EBBAA/
GBEBC**

Adopted: 10/24/00

Revised/Readopted: 7/10/01

Orig. Code(s): EBBAA

Infection Control - HIV, AIDS, HBV

Lane ESD shall use standard precautions for infection control at all times. Each employee or student is therefore treated as though an HIV, AIDS or HBV¹ infection exists.

The ESD shall develop an Exposure Control Plan that includes infection control procedures for employees and students.

Staff and students, as appropriate, shall receive an annual in-service that includes correct procedures for cleaning up body fluid spills and for personal clean up, appropriate disposal, immunization and personal hygiene, as well as the location and content of first-aid and clean-up kits. Kits shall be readily available to students and staff in ESD programs and facilities and in each ESD vehicle.

In addition to an annual in-service, staff and students on a regular basis will receive HIV, AIDS and HBV information.

This information will emphasize infection, how infection is spread, as well as how it is not spread.

Lane ESD will cooperate with the Oregon Department of Education and the Oregon Health Division in delivering HIV, AIDS and HBV education.
