Care of District Property by Students**

Any student who willfully damages any district property shall be in violation of the district's disciplinary policies and shall be disciplined, suspended, or expelled.

Damage to student property caused by a student shall be evaluated and the amount of the damage shall be assessed against the student and the parent or parents having legal custody of the student.

If assessed damages are not paid as demanded, the district superintendent may bring an action against the student and the person or persons having legal custody of the student for the amount of the assessed damages, not to exceed \$5,000 plus costs. If assessed damages are not paid for in the specified time period for property that has been lost or willfully damaged by a student, the district may also withhold the grade reports, diploma, or records of the student who owes the fee or is responsible for the loss or damage.

Records requested by another district to determine a student's appropriate placement may not be withheld.

Student damage to district property may also be reported to police, depending on the amount and nature of the damage.
